Data Scientist excited to work with datasets and create visualizations that unveil the information that the data holds

Technical Highlights

- Experience using programming language R to create machine learning applications
- Transformed datasets using Jupyter Notebook and RStudio
- Created data visualization in Microsoft Power BI

Skills

- Programming languages: SQL, Python, R, JavaScript, HTML, CSS
- Operating systems: Windows 10
- Frameworks: Bootstrap
- IDEs: Visual Studio
- Methodologies: Agile/Scrum
- Databases: Jupyter Notebook, RStudio

Work Experience

Prosper IT Consulting, Data Scientist

02/2022 – present

Portland, OR

- Collaborate with a team using the Azure DevOps platform
- Used Jupyter Notebook for the coding aspects of the project
- Created data visualizations in Microsoft Power BI

Histology Laboratory Technician, MNGI Digestive Health

11/2009 – present

Minneapolis, MN

- Supply chain and inventory control since 2015
- Serve on DEI Committee since 09/2020
- Equipment maintenance and quality control

Education

Certification in Data Science | Class of 2022 | The Tech Academy | Portland, OR

Master of Business Administration – Health Care Management | Class of 2019 | Northcentral University | Scottsdale, AZ

Bachelor of Science – Biology | Class of 2015 | Metropolitan State University | St. Paul, MN
