Entry level **Data Scientist**: excited to work with datasets and create visualizations that unveil the information that the data holds

Technical Highlights

- Experience using programming language R to create machine learning applications
- Transformed datasets using Jupyter Notebook and RStudio
- Created data visualization in Microsoft Power BI

Skills

- Programming languages: SQL, Python, R, JavaScript, HTML, CSS
- Operating systems: Windows 10
- Frameworks: Bootstrap
- IDEs: Visual Studio
- Methodologies: Agile/Scrum
- Databases: Jupyter Notebook, RStudio

Work Experience

Data Scientist - Internship, *Prosper IT Consulting*
10/2022
Portland, OR
- Participated in Data Scientist role in the Microsoft Azure team environment
- Data analysis using Python in Jupyter Notebook
- Data visualization creation in Power BI
- Daily (Scrum) standup attendance via Discord app

Histology Laboratory Technician, *MNGI Digestive Health*   6/2009 – present
Minneapolis, MN
- Supply chain and inventory control since 2015
- Serve on DEI Committee since 09/2020
- Equipment maintenance and quality control

Education

Certification in Data Science | Class of 2022 | The Tech Academy | Portland, OR

Master of Business Administration – Health Care Management | Class of 2019 | Northcentral University | Scottsdale, AZ

Bachelor of Science – Biology | Class of 2015 | Metropolitan State University | St. Paul, MN
